Hello !!!

I'm Ameer Hamza Khan

FULL-STACK DEVELOPER

As a Full-Stack Web and App Developer with a strong focus on the MERN stack, I thrive on turning creative ideas into functional digital solutions. My journey through frontend and backend development has equipped me with the skills to build responsive, user-friendly applications. I am committed to delivering quality work and excited to bring my skills to impactful projects. Let's create something exceptional together!

MY BIOGRAPHY

I'm Muhammad Ameer Hamza Khan, a Full-Stack Web and App Developer from Karachi, Pakistan, specializing in the MERN stack. With a strong foundation in both frontend and backend technologies, I've developed various web projects and enjoy bringing creative ideas to life through code. I value honesty, teamwork, and continuous learning, and I'm eager to contribute my skills to impactful projects. Outside of tech, I enjoy sketching and exploring new ways to express my creativity. Let's connect and build something great together!

Skill & Interest

- FRONTEND DEVELOPMENT
- BACKEND DEVELOPMENT
- DATABASE MANAGEMENT
- TOOLS & TECHNOLOGIES
- PROBLEM SOLVING
- SKETCHING

2021 - 2024

EDUCATION

I completed my Matriculation with 10 years of education at Defence View School, Karachi, followed by FSc Pre-Engineering at Quaid-e-Azam Government Degree Boys College. To further enhance my skills, I pursued a Full-Stack Web and App Development course at Orasoft Institute, where I gained comprehensive knowledge in both frontend and backend technologies.

Maticulation

Defence View School Karachi | 10 years of Education

FSc Pre-Engineering

Quaid-e-Azam Government Degree Boys College | 2021-2023

Full-Stack Web and App Development Course

Orasoft Institute, Karachi, Pakistan | 2023 – 2024

EXPERIENCE

2023 - 2024

Freelance Web Developer
September 2023 - 2024

Designed and developed various web projects, including assignments and website clones, showcasing a range of skills in frontend and backend development.

Full-Stack Developer Projects
September 2023 - 2024

Completed a comprehensive Full-Stack Web and App Development course at Orasoft Institute, where I worked on real-world projects to build and optimize web applications.

Personal Development and Collaboration
September 2023 - 2024

Engaged in personal projects and collaborations, enhancing my skills in MERN stack technologies, debugging, and responsive design.

SELECTED PROJECTS

Netflix Clone (Front-End)

I created a Netflix clone using HTML and CSS, focusing on a responsive design and user interface that mimics the streaming platform's look and feel.
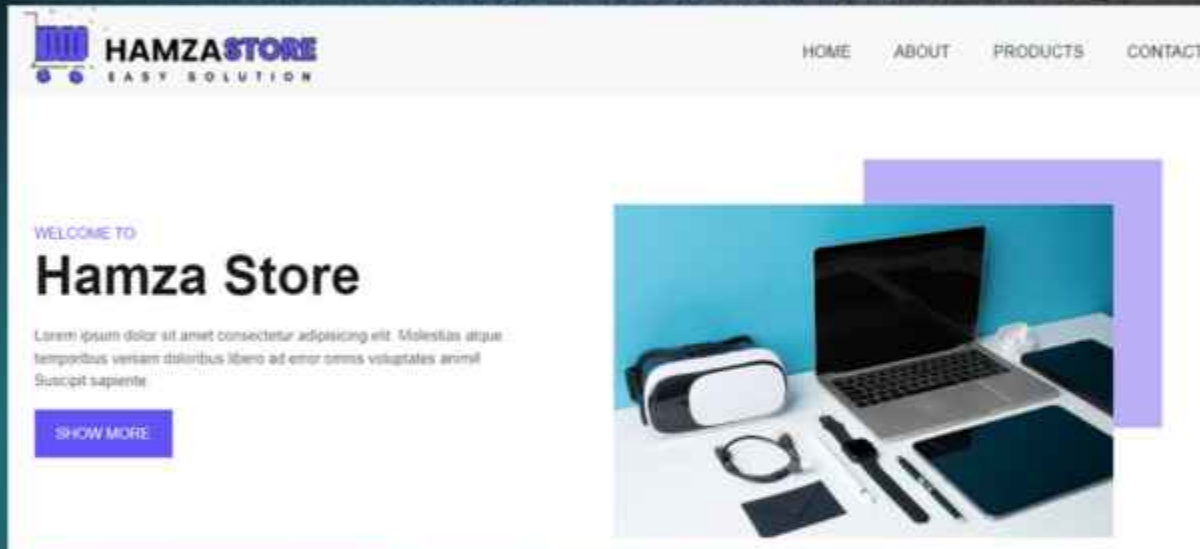

Amazon Clone (Front-End)

I developed an Amazon clone using HTML and CSS, replicating the e-commerce platform's user interface with a responsive and visually appealing design.

2023 - 2024

SELECTED PROJECT

2023 - 2024

Hamza Store (Full-Stack E-Commerce)

I developed Hamza Store, a full-stack e-commerce site featuring user authentication and product management. Built with React, Node.js, Express.js, and MongoDB, it is deployed on Netlify.

Flappy Bird Game (HTML, CSS, JavaScript)

I created a Flappy Bird game using HTML, CSS, and JavaScript, replicating the classic gameplay with a responsive and interactive design. The game is deployed on Netlify.

Animated Flower (HTML, CSS, JavaScript)

I created an animated flower that grows from the root and waves beautifully, using HTML, CSS, and JavaScript. This project is available on my GitHub.
